1. 岡崎公園 周辺 駐車場 の予約制

【実施日】5日間

おがざきこうえんちゅうしゃじょう ロボレちゅうしゃじょう 田崎公園 駐車場 りぶら東 駐車場 1・2 「予約方法】

2024年3月8日(金)から受付開始。 先着順 とうじつ よやくか 当日予約可

桜期間中は大きな混雑が予想されます。 岡崎公園 周辺へ で行く際は、鉄道・バス・タクシーなどの公共交通機関を 精極的に利用してください。

#### いえやすぎょうれつ 「**家康 行列** |

【開催日】 2024年4月7日(日)

13:30~16:00 完定

出陣式:伊賀八幡宮にて13:00~

#### 【コース】

伊賀八幡宮~芝川河川敷石岸〈約2キロメートル) 選考会で選ばれた武将後・姫後を始め、市民キャスト 総勢700人が参加予定

#### 【特別出演】

佐野優斗さん…徳川家康公が岡崎で活躍した頃の若き 日の家康公に扮します。

青木源太さん…ステージイベントのほか家康行列全般 の総合MC を務めていただきます。

岡崎観光協会 20564-64-1637

## Let's reduce garbage:

#### Q. Why is it necessary to reduce the amount of garbage?

#### ① For the realization of a sustainable society:

Most of the products we use are produced using limited resources. Therefore, we should make best use of them. Carbon Dioxide, generated when garbage is incinerated or melted, is said to be a cause of global warming.

# ②For making our waste disposal facility compact to use it for a long time:

In order to properly treat garbage, we need facilities for incinerating and melting and final disposal sites that waste is buried. Currently, we are considering the construction of an alternative facility to the aging Hatcho Clean Center. The waste amount affects the scale and lifespan of the facility.

#### **③** For reducing waste disposal costs:

The city's waste disposal costs more than 5 billion yen every year. Reducing waste directly leads to a reduction in the cost.

#### O. What can we do?

#### ① Separate garbage from recyclable resources:

Whether the garbage becomes a resource or just a waste to be incinerated and buried is determined when the garbage is thrown away. By sorting out, resources can be reused and garbage size can be reduced. The efficiency of incineration and disposal site will be improved and prolonged.

#### 2 Put recyclables in designated collection places:

Recyclables are collected in various places in the city. In addition to the "resource collection" where children's associations and PTAs collect newspapers and magazines, the city office or Citizen Center provide Recyclable's collection site as well as some supermarkets.

#### 3 Reduce kitchen garbage:

About 30% of the combustible waste is from kitchen. Garbage contains a lot of water, so reducing the amount of garbage reduces the weight of the garbage. It will reduce waste size and improve the efficiency of combustion.

#### \*Three "Cut" Campaign:

- "Water Cut" drain off the water from garbage using net.
- "Making Cut" make food just big enough to eat.
- "Use Cut" Plan ahead and check what you have in the fridge, and use them all before buying supplies.

## ごみを減らそう

### Q. なぜ、ごみを減らす必要があるの?

### ① 持続可能な社会の実現のため

私たちの身近にある製品のほとんどは、酸りある 資源を使って作られています。そのため、資源を 大切にし、枯渇を防ぐ必要があります。ごみを 焼類・溶融するときに発生する二酸化炭素は、 地球温暖化の原因の一つと言われています。

## ②ごみ処理施設をコンパクトに、長く使うため

ごみの処理には、焼き却・溶融する処理施設と処理 したものを埋め立てる最終処分場が必要です。 現在、老精化が進む八帖クリーンセンターの代替 施設の建設を検討しています。処理するごみの量 は、処理施設の規模と最終処分場の延命に影響し ます。

#### ③ ごみ処理経費の削減のため

市のごみ処理には、毎年約50億円以上の経費がかかっています。ごみを減らすことはごみ処理にかかるコストの削減に直接つながります。

#### 0. 私たちができることは?

#### ① ごみと資源物を分別する

ごみが資源物となるか、焼き新されて埋め立てられるかは、ごみを捨てるときに決まります。 分別することで資源物は再利用され、ごみの量は減ります。 焼きが効率も良くなり、処理施設や最終処分場の延命につながります。

#### ② 資源物を回収場所に出す

資源物は、市内の様々な場所で凹収しています。子ども会やPTAが新聞・雑誌などの凹収を行う「資源凹収」のほか、市役所・市民センターの拠点凹収やスーパーなどの凹収協力が居をご利用いただき、資源物のリサイクルにご協力ください。

### ③ 生ごみを減らす

家庭から出される可燃ごみの約3割が生ごみです。 生ごみは水分を夢く答むため、生ごみを減らすこと でごみの重量が減少し、燃焼効率アップにもつ ながります。

#### 3キリ運動

「水キリ」水切りネットでしっかり水を切る 「食べキリ」食べ切れる分だけ作る。

「使いキリ」買い物箭に冷蔵庫をチェック。 計画的に使い切る
